

## Front-End Software Developer

We are a global multinational leader providing high-quality integrated solutions for the **Healthcare** sector. Our portfolio includes medical systems, AI-powered technologies, and services supporting professionals in fields such as Medical Informatics, MRI, CT, Radiology, Endoscopy, Ultrasound, IVD, and Veterinary Diagnostics.

We believe that people are the key to achieving our ambitious goals. To help you make a difference, we provide everything you need to grow with us: forward-thinking management, tailored training programs, a dynamic team environment, and access to the latest market technologies.

We are looking for a **Front-End Software Developer** to join our **Medical Informatics Innovation** division. In this role, you will be a key contributor to our front-end development initiatives.

### Key Responsibilities:

- Collaborate within an Agile team environment.
- Maintain and update the Angular framework across our solutions.
- Design, develop, and maintain application front-ends.
- Perform software maintenance (corrective, adaptive, perfective, and preventive).
- Provide Tier-2 analysis and support for issues in installed systems.
- Track implementation and maintenance activities using standard development lifecycle management tools

### Your Profile:

- At least 4 years of experience in Angular 2.x web application development and software analysis/development within the Healthcare sector (p. 1).
- Deep expertise in HTML5, CSS3, JavaScript, TypeScript, and the Angular 2.x+ framework.
- Proven experience with Angular version upgrades.
- Familiarity with RESTful APIs.
- Experience developing reusable components in multi-repo environments.
- Commitment to Clean Code principles.
- Strong UX/UI skills with the ability to model modern, high-performance interfaces.
- Familiarity with Git and CI/CD pipelines

### Preferred Skills:

- Knowledge of GNU/Linux operating systems, Docker, and Kubernetes.
- Experience with relational databases (PostgreSQL) and JavaEE standards

### Soft Skills & Qualifications:

- Proficiency in English.
- Strong analytical, process modeling, and problem-solving skills.
- A proactive, responsible, and open-minded approach with excellent communication.
- A natural aptitude for teamwork

Contract: Full-time, permanent (CCNL Commercio)

Location: Bolzano, Italy

This job offer is open to applicants of all genders (Laws 903/77 and 125/91). Please include authorization to process your personal data in accordance with Legislative Decree 196/2003 and Art. 13 GDPR (EU 2016/679)
