#### 1. Goal of the market research

The goal of this market research is the identification of a partner that can support NOI S.p.A. in activities regarding renting of devices for the setup of a flow management system that enable registration at events. More information about the requirements is mentioned in the following paragraph.

## 1.1 REQUIREMENTS

The SFSCON will take place on the  $10^{th}$  and  $11^{th}$  November 2023 at the NOI Techpark in Bolzano. The expected number of participants is around 1000 participants. More information about the event is available at the following link:

#### https://www.sfscon.it/

Considering that the event will start at 8.30 am the flow management system must be set up at the latest the day before the event (9<sup>th</sup> November 2023).

Considering the expected number of participants (around 800 participants expected at the event), and the experience made during the last editions of the event, the flow management system should include the following hardware:

- 6 Smartphone/Tablet to scan the ticket QR Code;
- 6 printers to print the badge on labels.

The labels will be printed only in black and white. Here below we list an example of the dimension that the labels should have:

Width: 92 mmHeight: 61 mm

In the image below the design of the label is shown.

The service provider must provide a sufficient number of labels to print the labels for all participant of the event for both days. The expected

Other useful information that must be considered for the generation of the badge template:

- Name and surname font: Source Sans Pro Bold 20pt;
- Company name font: Source Sans Pro Regular 20pt;
- Interline spacing: 21 pt;
- SFSCON 2023 font: Source Code Pro Bold 15 pt;
- Shape outline: 1pt.

The SFSCON team, to manage the event registration, will use Pretix (<a href="https://pretix.eu">https://pretix.eu</a>) as ticketing software. For this reason, the flow management system must be compatible with Pretix to:

- get the participants information (e.g., name, surname, company name, ticket QR code for the registration, etc);
- push the check-in information to Pretix, to allow the SFSCON organizers to monitor the event attendance.

Here below the link to Pretix's documentation is shared:

## https://docs.pretix.eu/en/latest/

This market research includes also:

- the setup and test of the entire flow management system that, as said before, must be concluded at latest the day before the event (9<sup>th</sup> November 2023);
- in presence technical support team during the whole event (10<sup>th</sup> and 11<sup>th</sup>
   November 2023) that must immediately intervene in case of need (e.g.,
   support the team in case of questions, solve technical problems, exchange
   broken devices, etc.). The technical support team should be composed as
   follows:
  - o 3 technicians in the following time frames:
    - Friday 9<sup>th</sup> November from 8:00 till 12:00;
    - Saturday 10<sup>th</sup> November from 8:00 till 10:00;
  - o 1 technician in the following time frames:
    - Friday 9<sup>th</sup> November from 12:00 till 18:00;
    - Saturday 10<sup>th</sup> November from 10:00 till 18:00;

## 2. Constraints

In this section are listed and described the constraints that the service provider must fulfill to work with NOI S.P.A. on this project.

## 2.1 ECONOMIC EXPLOITATION

Where the creation of material subject to proprietary rights, including copyrights, sui generis data rights, and related rights, including solely of photographs, industrial design, all rights of economic exploitation arising from achieved results are reserved to NOI S.p.A., excepting those expressly excluded when the order is placed.

Further, if the material includes a software development project, all source code from libraries or other modules used in the realization of an assignment and belonging to a third party must be released under an Open Source license (opensource.org/ licenses) in a manner compatible with the scope of the "outbound" software license, without requirement for adaptation, addition, cancellation or requests for permission from third parties on the part of NOI S.p.A. In the absence of any expressly indicated license, the terms of the GNU GPL v3 license shall apply. The use of material belonging to third parties must be expressly declared at the time of the offer or be easily and immediately understandable from the description of the project. In the event that code is developed during the realization of this assignment, NOI S.p.A. will initiate a Git repository on which the supplier must develop and publish the source code.

If the material consists of data, creative works (drawings, literary works, cinematographic works, figurative art, photographs), industrial design or other material which are subject in whole or in part to the proprietary rights of a third party, the use of such material is permitted provided it is licensed under conditions compatible with the license under which said material will be published, if indicated. If no license is indicated, the material will be subject to conditions compatible with the Creative Commons Zero (CCO) license.

#### 2.2 INVOICING

The invoicing of the activities concluded by the supplier will be sent to NOI S.p.A via electronic invoice only after the outputs produced have been successfully tested by NOI S.p.A. Before to proceed with the testing of the outputs, the supplier must provide to NOI S.p.A.:

- the entire documentation.
- if code development is planned, the code must be uploaded to the Git repository provided by NOI S.p.A.
- in the case of multimedia contents (e.g., photos, videos, illustrations, documents), the service provider must upload it on specific platforms (e.g., Vimeo, Flickr, etc.) and provide the source files or open versions through appropriate file hosting services indicated by NOI S.p.A.

All invoices must include that the transaction is subject to the Split Payment discipline as mentioned in the art.17-ter del DPR 633/197 and must be issued exclusively in electronic format (Unique Office code: T04ZHR3).

Since part or all activities included in this market research could be funded by EU or national funded projects the supplier must include in all documents the following information: project name, project code and project CUP. The information to be included will be shared by NOI S.p.A. in the market research.

#### 2.3 WORKING PLACE AND HOUR

## 2.3.1 Working Hours

The execution of the works that involve collaboration with the staff of NOI Techpark or other entities involved in the project must be carried out within a timeframe ranging from 9.00 to 12.00 and from 15.00 to 17.00. Depending on the needs, different times may be agreed via email between the service provider and the entities involved.

#### 2.5.2 Working Place

The meetings that will be agreed during the project will take place, according to the needs of the project team, online or in the NOI Techpark offices:

• Via Alessandro Volta, 13, Bolzano.

Any expenses that the supplier will have to incur to reach these locations will not imply an additional cost for NOI Techpark. In any case, any travel costs that the supplier will have to incur to ensure the natural performance of the project activities (e.g., extraordinary coordination meetings, interventions that require presence on site, development activities to be carried out in agreement with the one or more entities / suppliers involved in the project, etc.) can't be billed to NOI Techpark.

## 3. Request to the supplier

#### **3.1 COMPETENCES**

Considering the activities included in this market research, the service provider who wants to send an estimation should provide a list of references. For these types of activities:

- renting of informatics devices such as Tablet/Smartphone or other devices to scan the event tickets and printers to print the participants' badge on labels;
- technical support for the flow management system and the rented devices;
- background and technical competences to interact via API with the ticketing system in use by the SFSCON team.

## **3.2 PROJECT INFORMATION**

The supplier must include in all documents (e.g., offer, invoice, etc.) the following information:

**Project name:** IMPACT – Impacting Innovation Through Specialization

**Project code:** EFRE1048

**Project CUP:** J57H23000640009

## 4. Documentation

To participate in this market research, we kindly ask you to provide the following documentation:

- a short company description that includes also a list of references in similar projects;
- a short description of the team that will be assigned to the project including
- a short description of the competences of each team member;
- the unit cost of of each device rented during the event;
- the hourly rate of each team member included in the project team;
- the total costs of the entire services and divided per:
  - o Renting of 6 ticket scan devices;
  - Renting of 6 printers;
  - A sufficient number of labels for the printers, to provide the badge to all participants for both days;
  - o If needed, development of the integration with the Pretix API;
  - o Support service.

## 5. Deadlines and contacts

The service providers who are interested in participating in this market research will have to present their estimation by the **27**<sup>th</sup> **of September 2023**.

In case of any question please contact: Stefano Seppi
