

Back End Developer

Who we are:

We're an established software company based in South Tyrol, Bolzano, Italy. We develop carefully crafted mobile and web-based solutions with GIS component for our clients from the public and private sector distributed mainly (but not only) across Europe.

Your Tasks:

Within the Solutions team, we are currently looking for an experienced Back-End Software Developer with a solid background in building scalable data web applications.

Your Primary Roles:

- Specify and implement APIs and other I/O interfaces for data queuing, database storage, and application-to-application data exchange
- Communicate and work closely with management and CTO to schedule delivery of feature sets, estimate task timeframes, and follow agile iteration processes
- Document code and maintain applications as a new functionality is developed and new deployments and revisions rolled out.
- Research and evaluate new technologies to be used as enhancements or upgrades to existing server clusters, computing applications and other IT infrastructure components
- The opening is a full-time position.

Your Education/Experience:

- Degree in Computer Science or equivalent experience
- Hands on experience with modern PHP and Symfony
- 3+ years building web applications / web services
- Ability to effectively and independently own areas of development and contribute to development deliverables as part of a team
- Good knowledge of SQL language
- Good analytic skills and problem-solving oriented attitude
- English language proficiency

Nice To Have:

- Experience PostgreSQL databases
- Experience with Geographic Information Systems and geodata
- Knowledge of software versioning tools
- Fluency in Italian and/or German

What Will Make You Stand Out:

- Good communication and relationship building skills
- Curious, adaptable personality who enjoys a dynamic and constantly evolving environment
- Team working and problem solving
- Analytical skills and aptitude for innovation

What We Offer:

- Smart working environment
- Flexible work time
- Collaboration in an innovative and dynamic team
- Opportunities to shape a growing company
- Opportunity to develop your strengths with us
- Participation in innovative projects on topics related to climate change and environment
- Participation in the company's success
- Exchange with national and international client teams and partners
- Bright and beautiful office at NOI Techpark of Bolzano (www.noi.bz.it), in the heart of the Alps
